About This Content

When Rocco was forced to leave the Intergalactic Police Department, he disappeared without a trace.

With Rocco out of the picture, his former enemies were emboldened and tightened their grip on the citizens living the densely populated residential areas of Ribbit IV. They soon learned to fear the shadows that once provided them with safety when rumor spread of a new, hooded figure dispensing justice to the unjust.

Where they were once hunted by Rocco the Lawman by day, they were now hunted by Shinobi Rocco by night. They say Evil never sleeps, but they never told you that's because the Righteous made Evil afraid of the dark.

This DLC contains a custom skin for Rocco in Awesomenauts. You need to have Rocco available as a playable character in order to access the skin in-game. Owning this skin will also unlock the special portrait for use in-game.

Very cool skin for rocco, completley changes the way he looks and gives him a purple shuriken effect when vengeance is active. I wish they made custom voice lines for this skin thogh.

"I CHOPU YOU UP RIKE RAMEN NOODLE". This skin is perfect for those who do not enjoy rocco's orginal work. He looks more like a cop that he should be as stated in his description instead of a pure hawk. This skin changes it all making him look like he would want vengeance on the cartel gang bosses, etc. Overall 10V10 is my vote.. "its ok" 2V1 -Loser Games. I personally didn't enjoy Rocco's core design, if you like him, that's fine, but for me, I think he just looks strange.

Well anyhow this skin fixes all of issues with Rocco, he looks badass and the effects he gets are really cool like the Shurkins when he uses Vengeance, plus I love the new bow sound effects.

Overall, easily one of the best skins from 2015.
