## About This Game

While on duty you'll need to remain ever vigilant and question any suspicious behaviour to protect your small town from a rising criminal threat. Off duty you'll need to visit friends, family and live life to its fullest. Your actions while at work and home affect your stress levels. If you spend too much time fighting crime, you will be under severe pressure that will affect your ability to uphold the law.

You'll need to question witnesses, administer breathalyser tests, block off roads for city events, site mobile speed cameras and pursue fleeing criminals on foot and in one of the specially designed police vehicles.

## Features

- Rise through the ranks to take on more dangerous missions
- Career mode with an optional realistic difficulty that includes permanent death
- Fight crime while on duty and manage your social life while off duty
- Four police squad vehicles to unlock and drive while on duty
- Five different camera modes while driving squad car
- Citizens of Mountain Valley can behave suspiciously. Stay ever vigilant to spot danger
- Perform breathalyser tests
- Talk with citizens of Mountain Valley to discover the location of fleeing criminals
- Run vehicle checks (broken lights, illegal plates, expired licenses etc)
- Order vehicles to pull over
- Exercise speed calming measures by placing speed cameras
- Place traffic cones to block off roads
- Force entry into a house by kicking the door down, requesting a warrant or you could just try and knock politely

- 
- Arrest anybody but suffer the consequences for abusing your power
  - Own a house and decorate the interior by purchasing fridges, TVs beds, floor rugs etc.
  - Buy your own vehicle while off duty and explore the town
  - Manage your hunger levels by purchasing food
  - You can manage your stress control by performing actions including watching television, taking a nap or having a shower
  - More than 200 different variants of missions to complete

This game is absolutely fantastic. After a while of searching for a multiplayer, fast-paced action game for a great price I came to this gem. The gameplay is fast but responsive and skillful, there isn't a moment where you feel cheated by the controls. There's not a flaw in this game and you could easily kill hours playing this. Would recommend.

It's also a perfect price to gift a friend after you learn the skills then kick their butt.. until they get better than you xD. Are you serious? It's unplayable, although idea is great and it's colorful, charming, screenshots are great, but it's far far away from being fun to play. Let building physics aside (which are not good), the wrecking ball controls are really bad and that's what ruins the game. Requested a refund.. Surprisingly I actually liked this. Got it for my daughter but find myself playing it!. I paid \$15USD for a game that has a frozen menu. I tried reinstalling and verifying and i searched all over the internet to find no fixes. I did find a few other people that were complaining on forums a few months ago with the same problem. The developers actually reached out to them, but when asked if anything can be done they just "ghosted" them and months later there still is no fix/vanswer. Glad to know the devs don't care about if we can play so long as they get their money. This is by far my favorite volume of Friendsim.

Elwurd is a great character with some hilarious dialogue (there's a slam-poetry section, 10V10), and all the paths with her have good progression and depth instead of abruptly dead-ending if you don't choose the "good" option.

Kupram and Folykl aren't as much fun compared to Elwurd, so I'd recommend getting them out of the way first. They're a cute duo with some funny bits, but their memes just aren't as fresh. I did get a hefty laugh from a hentai joke though, so you have that to look forward to.

Definitely recommend this volume overall though, it's one of the best, mainly for Elwurd. Idk who's writing all these Alternian waifus but they're killin' it.. mieinkaft in conte strejke ... or something else... pls..

don't

get

this

game

it's just bad for you and youre family

all these russians can \*\*\*\* my .... Is this a good game? Don't know. Crashes during the tutorial.. The graphics are passable for a board game. The controls are clunky and feel slow. Things like unit and terrain information is only accessible via a hover and not at all times (like when moving the unit). The graphics also make it hard to see at a glance what units are on the board. The cards are not easily read.

Overall it could be a much better game if the UI was refined a bit. As it is, I find it too cumbersome to deal with, so I will be deleting it.. Well, it is very beautiful and complete scenery but ... it is corrupts simulator for me. With this scenery enabled in library, world objects and textures stop loading if i fly everywhere longer than 50-60 nm. Also, it caused very long loading of Aircraft and Cockpit textures (~1 minute) if i change views. Simulator is installed on SSD and i'm not experiencing this kind of problems with all of scenarios from my collection.

I hope developers will find this global bug and update scenario, but for now i will request refund.

---

This game is different ... yes different from other in the LEGO game series. But just that does not make this game bad. It could be enjoyable if not for some strange changes to game mechanics. The worst change is inability to change character at any time when you're in the hub. Ok, maybe it could be impossible while you haven't completed story arc, but you actually can change character at any time, as long as you've unlocked that character and went to the place when it might be roaming ... yes, that last part is one of the worst changes. You want to use specific character in the hub, go find it, at you can't be 100% sure where it is standing right now. Second worst change is kinda related. When you want to complete bonus\treasure missions, you need to use specific characters. Guess what? You have to switch both of your characters (P1 and P2) to those two, that you need in this mission. Otherwise, even if you've unlocked needed characters, game won't switch them automatically. It will only say, that you need eg. someone with a crystal skull and an explosive. 3rd change, which is not so bad, but still, that is what makes this game so very different - story adventures are short, single area tasks. This is different from both previous games and those being released after IJ2 (actually, maybe Harry Potter was a bit similar with it's classroom levels, but this actually had sense).. Only have an hour into this game but I gotta say it really is cool. The devs really put some time into this game and has been enjoyable so far. Worth the 5\$ for sure.

[https://www.youtube.com/watch?v=dIJqj\\_KKdE](https://www.youtube.com/watch?v=dIJqj_KKdE). Okay, I initially classified this game in my "This Game Sucks"-category (only after spending a few hours on it). I actually reloaded this game and forced myself to learn and play the game. Objectively, it's pretty sound - as most hack-n-slash follow similar key-binding layouts and mouse-behaviours of well-known games of this genre (i.e. Diablo). I think the majority of the negative reviews come from those that have played Diablo or similar hack-n-slash games as Hazen introduces a differing layout for control movement and attack. I played this game with the notion - "this is not Diablo, don't expect it to be Diablo". Looking beyond that, the game does quench the hack-n-slash thirst for those willing to overlook it's unique default control layout.. garbage like others 18 wheels games no gps. My initial thoughts were: "Okay. A Kind Ale War kinda made me wanna check out this game."

My reaction upon playing game: "Okay, tight controls, chill vibes"

My reaction upon seeing first boss: "HOLY MOTHER OF CTHULHU THIS IS AMAZING"

PROS: DANK BEATS, SWEET CONTROLS, LASERS AND RAINBOWS

CONS: YOU THINK THERE'S CONS? GET OUT OF HERE YOU VEGAN, CROSS-FITTING, POLITICALLY NEUTRAL PARTY, HIPSTER.. It's not a joke. This is a literal retelling of the bible story.

0/10 expected a meme.. I'd just like to say this is by far the best game I've ever played. It was immersive and captivating throughout my entire playthrough, and it combined the best elements of ARGs with a video game I don't even have to leave home for. I've never written a review for a game before, but this is one I'd highly recommend to anyone looking for a new game to play (especially those looking into games with darker themes). I just really can't express how much I enjoyed this game, and how much I look forward to sharing it with, well, just about everyone else I know. 12/10 game, definitely recommend.

~Jaye. A great game but I'd suggest waiting for a sale for it. It's really not worth the listed price, sorry.
